

Get ready for some big math wins!

Your child's teacher enrolled the class in Prodigy's monthly math competition! Here's what you need to know about the Prodigy State Challenge™.

What is Prodigy?

Prodigy is a free, game-based math platform for grades 1-8. It's a fun and effective way to boost math skills and confidence—at home and at school!

Played by more than **20 million students** and trusted by over **800,000 teachers**, Prodigy makes math feel like an adventure.

Why parents love it:

- ✓ Turns screen time into productive learning time
- ✓ Keeps kids motivated to practice math
- ✓ Aligned to school standards for grades 1-8
- ✓ Lets you track your child's progress from the app

What is the State Challenge?

The State Challenge is a national competition where schools answer Prodigy math questions to boost skills, climb the leaderboard, and win prizes!

From October to April new winners are named every month, so there's always another shot at the top.

How it works:

- ✓ Schools face off within each state and size tier
- ✓ By answering math questions correctly, students help their school climb the leaderboard
- ✓ Each month, top 5 schools in each state and tier win exclusive in-game rewards
- ✓ Each month, 1st-place schools in each state and tier win **one-week free Core memberships**

Every question counts—participate from home!

Scan the QR code to:

- ✓ Log in or create a free Prodigy account (ask your child's teacher for their credentials)
- ✓ Track your child's progress and encourage play
- ✓ Learn more about the State Challenge
